

## Dear future and prospective DIU students,

you have expressed your interest in studying at Dresden International University. These days, the Corona virus has an impact on many aspects of life, including international higher education.

Given our strong experience in hosting international students, we confirm the following measures to support our international students:

### 1. Flexible intake for May 2020 Logistics MBA

All students for this program have the option to arrive in Germany by mid-August 2020. All lecturers between May and mid-August 2020 will be postponed, so you have no disadvantage by arriving later.

### 2. Support in finding an accommodation in Dresden

DIU will support you in finding accommodation upon your arrival – our accommodation manager Timur Mansurov ([timur.mansurov@di-uni.de](mailto:timur.mansurov@di-uni.de)) is your contact person.

### 3. Flexibility based on your visa situation

In case of any difficulties obtaining a visa for Germany, the University will support you and grant flexible solutions for your international studies.

### 4. The sum of small measures create your home in Dresden

Welcome Day after your arrival at DIU, Support in dealing with the Immigration Office in Dresden, Support in finding an internship position and – sometimes the most valuable: a helping hand in all everyday-life problems

To conclude, please allow me to outline my view on the situation:

The German government is managing the situation in order to protect people's health and to protect the country's economy as much as possible in the current circumstances. People are generally disciplined in following rules, regulations and recommendations for health protection.

The German system of healthcare disposes of the most advanced medical and pharmaceutical equipment, detection means, medical service and security system.

Dresden International University is working on supporting our students, designing new formats and content in order to also see the opportunity of this situation. We have more than 15 years' experience dealing with international students. Our international officers are fluent several languages like English, Chinese, Indian etc. Native language tutoring is strength characteristics of DIU.

As the managing director of the University, I am impressed by the engagement of all my colleagues.

„Fortune favours the prepared mind“ – use the opportunity of DIU's outstanding programs now, complete your application – and get ready for changes ahead.

**Yours, Dr. Ulrich Bremer, managing director**
